Dear Mr White

**EP Floor Box Installation**

I would like to extend my thanks to your team who have just completed extensive works at our Embankment Place headquarters.

The work initially commenced with the installation of 4000 floor boxes in a fully occupied building. From then it escalated to providing attendance and full containment for the data cabling contractors.

All the works were carried out in a professional and efficient manner under very difficult circumstances.

Many thanks

Yours sincerely

Jon Barnes  
Senior Engineering Manager
